## Frontend Engineer

✉ muhammed.ali.hissein@gmail.com 📞 +201024086643 🌐 GitHub 🌐 LinkedIn

Frontend Engineer with 2+ years of experience developing scalable web applications. Skilled in MERN Stack development, WebSocket real-time systems. Proven track record in optimizing UI/UX, improving performance, and delivering high-quality software solutions for international clients.

### Professional Experience

**Frontend Developer, Sustaingrc** [🔗](#) 03/2025 – Present | Remote | London

- Led a full refactor of a large, multi-system React portal (25+ systems) that previously suffered from slow load times, outdated architecture, and inconsistent UI.
- Rebuilt the frontend architecture using modern Nextjs patterns, optimized state management, and cleaned up legacy code, reducing initial load time from **60+ seconds** to a few seconds.
- Designed and implemented a consistent, modern UI/UX across all systems, replacing outdated and unmaintainable components.
- Took ownership of major product decisions and cross-team coordination, acting as the primary point of responsibility for the portal's frontend quality and performance which contributed to bringing new clients to the platform.

**Frontend Engineer, Actus Go** [🔗](#) 08/2024 – 03/2025 | Remote | Jordan

- Developed the Super Application using React Native and Expo Go, and Nextjs for the website.
- Collaborated with cross-functional teams to ensure seamless integration and functionality.

**Intern Frontend Developer, Sustaingrc** [🔗](#) 01/2024 – 06/2024 | Remote | London

- Designed and developed the company's official website from scratch, creating a faster, more modern, and fully responsive online presence.

### Education

**B.Sc. in Computer Science, University of the People, USA** [🔗](#) 2024 – Present | Remote

**B.A. in English Literature,** 2021 – 2025  
*Faculty of Arts, Fayoum University, Egypt* [🔗](#)

**Software Engineering Program,** 02/2023 – 06/2024  
*ALX Africa (Powered by Holberton School)* [🔗](#)

- Completed a 15-month intensive program, mastering frontend engineering and CS fundamentals.

### Skills

**Web Technologies:** React.js | Next.js | Websockets | Tailwind CSS | REST API

**Technical Tools:** Git | GitHub | Linux | Azure | CI CD

**Programming Languages:** JavaScript | TypeScript | C | Python

### Projects

**Moviezone, MERN stack** [🔗](#)

A fully functional application for **Movies and TVShows** using: (Next.js, Tailwind, TypeScript, Node.js, MongoDB)
